Management's Responsibility

To the Members and Board of Directors of NADF:

Management is responsible for the preparation and presentation of the accompanying consolidated financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian accounting standards for not-for-profit organizations. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the consolidated financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of consolidated financial statements.

The Board of Directors is composed entirely of Directors who are neither management nor employees of the Organization. The Board is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the financial information included in the annual report. The Board fulfills these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. The Board is also responsible for recommending the appointment of the Organization's external auditors.

MNP LLP is appointed by the Members of NADF to audit the consolidated financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically with management to discuss their audit findings.

July 27, 2022

Brian Davey

Executive Director

To the of Members and Board of Directors of NADF:

Opinion

We have audited the consolidated financial statements of NADF (the "Organization"), which comprise the consolidated statement of financial position as at March 31, 2022, and the consolidated statements of operations and surplus (deficit) and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Organization as at March 31, 2022, and the results of its consolidated operations and its consolidated cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Organization in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Supplementary Information

The supplementary information contained in the Schedules is presented for the purposes of additional analysis and is not a part of the basic audited consolidated financial statements. The information in the Schedules was derived from the accounting records tested in forming an opinion on the consolidated financial statements as a whole.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Organization's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Organization or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Organization's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Organization's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Organization to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Organization to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes are an integral part of these consolidated financial statements

Organization

NADF (the "Organization") promotes economic and business development in the Nishnawbe Aski Nation and other First Nation Treaty areas. The Organization is incorporated as a corporation without share capital by Letters Patent issued under the Corporations Act of the Province of Ontario on October 22, 1984. The Organization is registered as a not-for-profit organization under the Income Tax Act (the "Act") and as such is exempt from income taxes. In order to maintain its status as a registered not-for-profit organization under the Act, the Organization must meet certain requirements within the Act. In the opinion of management, these requirements have been met. Neegani Investment Management Inc., a wholly owned subsidiary of the Organization, is subject to income taxes.

Uncertainty with respect to COVID-19

During the second prior year, there was a global outbreak of COVID-19, which continues to have a significant impact on business through the restrictions put in place by the Canadian, provincial and municipal governments regarding travel, business operations and isolation/quarantine orders. At this time, it is unknown the extent of the impact the COVID-19 outbreak may have on the Organization as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the virus, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and isolation/quarantine measures that are currently, or may be, put in place by Canada and other countries to fight the virus. At this time, the outbreak has caused NADF to defer certain loan payments and waive interest charges for those loan clients whose business was affected due to closures and shut downs, and who are otherwise eligible, and find alternative means of documenting security held against loan balances and communicating with loan clients. NADF accessed Interest Relief funding to offset waived interest; Interest Relief funding will continue for eligible loans for the period to March 31, 2022. NADF accessed Interest Relief funding to offset waived interest.

1. Change in accounting policies

Financial Instruments

Financial Instruments in a related party transactions, risk disclosures and other amendments

Effective January 1, 2021 (hereafter referred to as the "initial date of application"), the Organization adopted the Accounting Standards Board's revised recommendations for the measurement and disclosure of financial instruments in a related party transaction, as well as revision to risk disclosures, in Section 3856 *Financial Instruments*. The revised standard provides additional guidance and requirements for the measurement of financial instruments originated/acquired or issued/assumed in a related party transaction ("related party financial instruments").

Revised Section 3856 clarifies that an entity must provide relevant entity-specific information to enable users to evaluate the nature and extent of each type of risk arising from financial instruments. The amendments remove the requirement to separately disclose the risks arising from derivatives from the risks arising from other financial instruments.

Revised Section 3856 requires the following related party financial instruments to be initially measured at fair value:

- Investments in equity instruments quoted in an active market.
- Debt instruments quoted in an active market.
- Debt instruments when inputs significant to the determination of its fair value are observable (directly or indirectly).
- Derivative contracts.

All other related party financial instruments are measured at cost on initial recognition. When the financial instrument has repayment terms, cost is determined using the undiscounted cash flows, excluding interest and dividend payments, less any impairment losses previously recognized by the transferor. When the financial instrument does not have repayment terms, but the consideration transferred has repayment terms, cost is determined based on the repayment terms of the consideration transferred. When the financial instrument and the consideration transferred both do not have repayment terms, the cost is equal to the carrying or exchange amount of the consideration transferred or received.

1. Change in accounting policies *(continued from previous page)*

At initial recognition, the Organization may elect to subsequently measure related party debt instruments that are quoted in an active market, or that have observable inputs significant to the determination of fair value, at fair value. If the election is not made, these instruments are subsequently measured at amortized cost. Subsequently investments in equity instruments quoted in an active market and derivatives instruments, except those designated in a qualifying hedging relationship or that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, are measured at fair value. All other financial instruments arising in a related party transaction are subsequently measured using the cost method.

Previously, the Organization initially measured related party financial instruments at either the carrying amount or exchange amount in accordance with Section 3840 Related Party Transactions. Subsequent to initial recognition, related party financial instruments were measured in accordance with extant Section 3856.

Transition

The Organization applied the changes in accounting policies resulting from the adoption of revised Section 3856 retrospectively and prior periods have been restated. Financial instruments exchanged in a related party transaction that do not exist at the date of initial application and were impaired or modified in the immediately preceding fiscal year have not been restated in accordance with Section 3856. In addition, the following transitional provisions were applied to related party financial instruments that exist at the date of initial application:

- The cost of a financial instrument that has repayment terms is determined using the undiscounted cash flows, excluding interest and dividend payments, of the instrument less any impairment, as at the beginning of the earliest comparative period presented in these consolidated financial statements.
- The cost of a financial instrument that does not have repayment terms is deemed to be the carrying amount of the instrument in the consolidated financial statements of the entity less any impairment, at the beginning of the earliest comparative period presented in these consolidated financial statements.
- Fair value of a financial instrument that is an investment in debt or equity instruments that are quoted in active market; a debt instrument where inputs significant to the determination of fair value of the instrument are observable; or, a derivative contract, is determined at the beginning of the earliest comparative period presented in these financial statements.

The retrospective application of this change in accounting policy did not have a material impact on the results of operations and financial condition of the Organization.

2. Significant accounting policies***Fund accounting***

The Organization follows the deferral method of accounting for contributions, with fund accounting. The General Fund accounts for program delivery and administrative activities. This fund reports unrestricted resources and restricted operating contributions. The Sponsorship Fund accounts for the sponsorship activities of the Organization. The Aboriginal Business Financing Program accounts for business development services. The Indigenous Economic Development Fund was established to build capacity by providing financial support via bookkeeping services, grants and loans. The Neegani Investment Management Inc. ("Neegani") Fund accounts for the activities of the Organization's wholly owned subsidiary, which was established to provide investment banking and business advisory services to members of the Nishnawbe Aski Nation and partners/investors. The Community Futures Development Corporation ("CFDC") Operating Fund was established to carry out strategic planning, small business counselling and advisory services. The CFDC Investment Fund was established to disburse business loans to communities included in its mandate. The Ring of Fire - MOA Implementation Fund was established to segregate funds to facilitate the Ring of Fire project activities on behalf of two First Nations.

Consolidated financial statements

These consolidated financial statements include the assets, liabilities and results of the operations of Neegani Investment Management Inc., a wholly owned subsidiary of the Organization. Intercompany balances and transactions have been eliminated upon consolidation.

Cash and cash equivalents

Cash and cash equivalents include balances held in chartered banks and interest earning investment accounts. Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

2. Significant accounting policies *(continued from previous page)*

Marketable securities

Marketable securities are recorded at fair value, with changes to fair value recorded as income or loss.

Long-term investments

Long-term investments are recorded at fair value, with changes to fair value recorded as income or loss. They have been classified as long-term in concurrence with the nature of the investment.

Long-term investments that are subject to significant influence are included in the consolidated financial statements on a modified equity basis.

Capital assets and amortization

Capital assets are recorded at cost. The cost for contributed capital assets is considered to be fair value at the date of contribution. Amortization is provided using the declining balance method, except for leasehold improvements and computers and video conferencing equipment which are amortized on a straight-line basis method, at rates intended to amortize the cost of assets over their estimated useful lives.

	Method	Rate
Office furniture and equipment	Declining balance	20%
Computers and video conference equipment	Straight-line basis	39 months
Software	Declining balance	100%
Leasehold improvements	Straight-line basis	291 - 300 months

Long-lived assets

Long-lived assets consist of capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The Organization performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying value of an asset, or group of assets, may not be recoverable. The carrying amount of a long-lived asset is not recoverable if the carrying amount exceeds the sum of the undiscounted future cash flows from its use and disposal. Impairment is measured as the amount by which the asset's carrying value exceeds its fair value. Fair value is measured using discounted future cash flows. Any impairment is included in earnings for the year.

Loan loss policy

Loans are reviewed by management on a regular basis. Various factors are considered during these reviews, including the viability of the borrower's operation, payments in arrears and the adequacy of the security supporting the loan. Where a risk of loss is identified, a provision is made by a charge to expenses, sufficient to reflect the account at management's estimate of realizable value. Upon final liquidation of accounts, the amount receivable is written-off against the allowance for loan losses.

Interest earned is recognized as income unless the account is classified as non-accrual. Non-accrual accounts are those on which a payment is contractually 120 days in arrears, except if the account is both well secured and in the process of collection, or where there is reasonable doubt as to the collectability of principal or interest. Where an account is classified as non-accrual, all previously accrued but uncollected interest is reversed against income. Subsequent payments are first applied to principal to the extent of any specific provisions or amounts previously written-off and thereafter credited to interest income on a cash basis until such time as the account is no longer classified as non-accrual.

Revenue recognition

Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or receivable if the amount can be reasonably estimated and collection is reasonably assured.

Consulting fees on contracts are recognized for accounting purposes on the percentage-of-completion method.

Investment income includes dividends, interest income and realized and unrealized investment gains and losses. Realized investment income is recognized when earned. Unrealized gains and losses on financial assets classified as held for trading are recorded to reflect changes in the fair market value of these assets.

2. Significant accounting policies *(continued from previous page)*

Lease revenue is recognized as revenue over the term of the lease provided collection is reasonably assured.

Deferred funding

The Organization is the recipient of certain approved program grants which specify project purpose, maximum allowable contributions, and are for specific time periods. Unexpended funds are included on the consolidated statement of financial position as cash and deferred funding until the programs are completed. At the completion of the program, unexpended funds are returned to the granting agency. Funds expended in excess of allowable grants must be provided from general funds.

Deficit

Potential surpluses or deficits from funds contributed by government agencies may be subject to recovery or repayment by the contributing agencies, depending on the terms and conditions of the relevant contribution arrangements. These potential liabilities/recoveries are not recorded until they become payable/recoverable.

Leases

A lease that transfers substantially all of the benefits and risks of ownership is classified as a capital lease. At the inception of a capital lease, an asset and a payment obligation are recorded at an amount equal to the lesser of the present value of the minimum lease payments and the property's fair market value. Assets under capital leases are amortized on a declining balance basis, over their estimated useful lives. All other leases are accounted for as operating leases and rental payments are expensed as incurred.

An arrangement contains a lease where the arrangement conveys a right to use the underlying tangible asset, and whereby its fulfillment is dependent on the use of the specific tangible asset. After the inception of the arrangement, a reassessment of whether the arrangement contains a lease is made only in the event that:

- there is a change in contractual terms;
- a renewal option is exercised or an extension is agreed upon by the parties to the arrangement;
- there is a change in the determination of whether the fulfillment of the arrangement is dependent on the use of the specific tangible asset; or
- there is a substantial physical change to the specified tangible asset.

Allocated administrative and personnel expenses

The Organization engages in various core operational and funded programs. The costs of each program include the costs of personnel, supplies and other expenses that are directly related to providing the program. The Organization also incurs a number of central administrative and personnel expenses that are common to the administration of the Organization and each of its programs.

The Organization allocates certain of its central administrative and personnel expenses (see Appendices A and B) by identifying the appropriate basis of allocating each component expense, and applies that basis consistently every year, including allocation of approved budgets for funded programs.

2. Significant accounting policies *(continued from previous page)*

Use of estimates

The preparation of consolidated financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period.

Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary.

Loans receivable are stated after evaluation as to their collectability and an appropriate allowance for loan losses is provided where necessary.

Amortization of capital assets is based on the estimated useful lives of the related capital assets.

Accounts payable and accrued liabilities are estimated based on historical charges for unbilled goods and services at year-end.

Deferred revenue is estimated based on management's review of revenue received but unspent at year-end.

These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in excess of revenue over expenses in the periods in which they become known.

Financial instruments

The Organization recognizes its financial instruments when the Organization becomes party to the contractual provisions of the financial instrument.

At initial recognition, the Organization may irrevocably elect to subsequently measure any arm's length financial instrument at fair value. The Organization has not made such an election during the year. Fair value is determined by reference to recent arm's length transactions.

Arm's length financial instruments

Financial assets and liabilities originated/acquired and issued/assumed in an arm's length transaction ("arm's length financial instrument") are initially recorded at fair value.

At initial recognition, the Organization may irrevocably elect to subsequently measure any arm's length financial instrument at fair value. The Organization has not made such an election during the year. Fair value is determined by reference to recent arm's length transactions.

The Organization subsequently measures investments in equity instruments quoted in an active market and all derivative instruments, except those designated in a qualifying hedging relationship or that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, at fair value. Fair value is determined by published price quotations. Investments in equity instruments not quoted in an active market and derivatives that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, are subsequently measured at cost less impairment. With the exception of financial liabilities indexed to a measure of the Organization's performance or value of its equity and those instruments designated at fair value, all other financial assets and liabilities are subsequently measured at amortized cost.

Transaction costs and financing fees directly attributable to the origination, acquisition, issuance or assumption of financial instruments subsequently measured at fair value are immediately recognized in the excess of revenue over expenditures for the current period. Conversely, transaction costs and financing fees are added to the carrying amount for those financial instruments subsequently measured at amortized cost or cost.

Related party financial instruments

The Organization initially measures the following financial instruments originated/acquired or issued/amended in a related party transaction ("related party financial instruments") at fair value:

- Investments in equity instruments quoted in an active market.
- Debt instruments quoted in an active market.
- Debt instruments when the inputs significant to the determination of its fair value are observable (directly or indirectly).
- Derivative contracts.

2. Significant accounting policies *(continued from previous page)*

All other related party financial instruments are measured at cost on initial recognition. When the financial instrument has repayment terms, cost is determined using the undiscounted cash flows, excluding interest, dividend, variable and contingent payments, less any impairment losses previously recognized by the transferor. When the financial instrument does not have repayment terms, but the consideration transferred has repayment terms, cost is determined based on the repayment terms of the consideration transferred. When the financial instrument and the consideration transferred both do not have repayment terms, the cost is equal to the carrying or exchange amount of the consideration transferred or received.

At initial recognition, the Organization may elect to subsequently measure related party debt instruments that are quoted in active market, or that have observable inputs significant to the determination of fair value, at fair value.

The Organization has not made such an election during the year, thus all such related party debt instruments are subsequently measured at amortized cost.

The Organization subsequently measures investments in equity instruments quoted in an active market and all derivative instruments, except those designated in a qualifying hedging relationship or that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, at fair value. Fair value is determined by published price quotations. Financial instruments that were initially measured at cost and derivatives that are linked to, and must be settled by, delivery of unquoted equity instruments of another entity, are subsequently measured using the cost method less any reduction for impairment.

Transaction costs and financing fees directly attributable to the origination, acquisition, issuance or assumption of related party financial instruments are immediately recognized in net earnings.

Financial asset impairment

The Organization assesses impairment of all its financial assets measured at cost or amortized cost. The Organization groups assets for impairment testing when available information is not sufficient to permit identification of each individually impaired financial asset in the group. Management considers whether the issuer is having significant financial difficulty in determining whether objective evidence of impairment exists. When there is an indication of impairment, the Organization determines whether it has resulted in a significant adverse change in the expected timing or amount of future cash flows during the year.

With the exception of related party debt instruments and related party equity instruments initially measured at cost, the Organization reduces the carrying amount of any impaired financial assets to the highest of: the present value of cash flows expected to be generated by holding the assets; the amount that could be realized by selling the assets at the consolidated statement of financial position date; and the amount expected to be realized by exercising any rights to collateral held against those assets.

For related party debt instruments initially measured at cost, the Organization reduces the carrying amount of the asset (or group of assets), to the highest of: the undiscounted cash flows expected to be generated by holding the asset, or group of similar assets, excluding the interest and dividend payments of the instrument; the present value of cash flows expected to be generated by holding the assets; the amount that could be realized by selling the assets at the statement of consolidated financial position date; and the amount expected to be realized by exercising any rights to collateral held against those assets.

For related party equity instruments initially measured at cost, the Organization reduces the carrying amount of the asset (or group of assets), to the amount that could be realized by selling the asset(s) at the consolidated statement of financial position date.

Any impairment, which is not considered temporary, is included in current year net earnings.

The Organization reverses impairment losses on financial assets when there is a decrease in impairment and the decrease can be objectively related to an event occurring after the impairment loss was recognized. The amount of the reversal is recognized in net earnings in the year the reversal occurs.

6. Long-term investments *(continued from previous page)*

During the year, shares of 48North Cannabis (2558107 Ontario Inc./DeIShen Therapeutics Corp.) ("48North") were converted to common shares of HEXO Corp., receiving 0.02366 common shares of HEXO for each common share in 48North.

Neegani Investment Management Inc. owns a 25% share, equally with three other Limited Partners, in Lot 251-3 Development L.P. ("Lot 251-3 LP"). Lot 251-3 LP's results from December 31, 2021 are included in these consolidated financial statements, along with stub period income of \$33,275. The primary assets of Lot 251-3 LP are disclosed as Property and Equipment on the Statement of Financial Position of the Partnership at \$7,429,117 (2021 - \$7,352,897). This building was constructed in 2019 on Fort William First Nation. The building has not been depreciated in the compiled financial statements of Lot 251-3 LP. If the building were depreciated, the impact on income would be an increase in expenditures of \$29,929 (cumulative of \$67,341 has been recognized in these audited consolidated financial statements).

The TD Private Investment Counsel Inc. investments are pledged as security for lines of credit totaling \$3,150,000. At year-end, the balance of the line of credit was \$54,328 (2021 - \$953,791).

NADF
Notes to the Consolidated Financial Statements
For the year ended March 31, 2022

7. Loans receivable (continued from previous page)

The loans receivable carry fixed interest rates ranging from 5% to 12%, except for Emergency Loan Program ("ELP") Loans disbursed under the General Fund, and Business Recovery Loans ("BRF") disbursed under the IEDF Fund, and have various repayment terms and security. ELP loans have a fixed interest rate of 0% for the duration of the loan; BRF loans have a fixed interest rate of 0% for the period to December 31, 2022, then have a fixed interest rate of 5%. Monthly repayments on ELP and BRF loans start no later than the 13th month after disbursement, and full repayment is required no later than 48 months after the date of disbursement. In exceptional circumstances some repayment flexibility may be offered. Unrestricted Loan Funds are pledged as security for lines of credit totalling \$3,150,000. One Operating Line of Credit issued to a client is outstanding at year-end, \$250,000, with a fixed interest rate of 9%. As at year-end the balance on this Operating Line is \$Nil (2021 - \$Nil). The direct loan portfolio is comprised of loans issued to Indigenous entrepreneurs as follows:

11. Long-term debt

	2022	2021
	Total	Total
The Toronto-Dominion Bank ("TD") term loan repayable in monthly instalments of \$10,342, including interest at 4.19% (2021 - 4.19%) per annum, maturing July 2025.	871,435	957,319
Less: current portion	(89,294)	(85,883)
	782,141	871,436

The long-term debt is secured under a General Security Agreement, assignment of Neegani's partnership interest in Lot 251-3 Development L.P. and TD Private Investment Counsel Inc. investments. At year-end, the book value of the investment in Lot 251-3 Development L.P. was \$1,788,864 (2021 - \$1,805,645) and TD Private Investment Counsel Inc. investments was \$2,348,164 (2021 - \$2,115,033). The long-term debt is subject to the financial reporting covenant requiring the audited consolidated financial statements be provided to TD Canada Trust within 120 days of fiscal year-end.

The principal repayments due within the next five years, assuming normal renewal terms, are as follows:

2023	89,294
2024	93,108
2025	97,085
2026	101,232
2027	105,556

12. Notes payable

	2022	2021
	Total	Total
NACCA - Enhanced Access Allowance	1,721,945	1,403,971
	(117,481)	(46,351)
Less: current portion	1,604,464	1,357,620
	(351,388)	(278,141)
	1,253,076	1,079,479

Promissory notes payable to NACCA are non-interest bearing and are repayable to NACCA when the underlying loans receivable are paid by the client, it has been determined that the promissory note proceeds will not be disbursed, or the funds are not utilized in a manner consistent with the funding applications. As described in the promissory note agreements between NADF and NACCA, provided that NADF has taken all reasonable steps to recover outstanding amounts from the client, NACCA will not demand repayment of uncollected promissory notes.

The current portion of the promissory notes represents the portion relating to anticipated principal repayments over the next fiscal year, and any funds received which will not be disbursed.

NADF
Notes to the Consolidated Financial Statements
For the year ended March 31, 2022

13. Indigenous Business Stabilization Program (IBSP)

	2022 Total	<i>2021 Total</i>
Repayable contributions (loan advances)	113,730	1,128,102
Non-pepayable contributions (<i>Schedule 3</i>)	57,910	496,034

Payable to NACCA	24,392	-
NADF general funds	2,111	136,927
Balance per bank	26,503	1,552,791

Under the Emergency Loan Program ("ELP") loans and grants were disbursed to eligible Small Medium Enterprises ("SME") recipients with funds provided by NACCA. Funds utilized for loans are repayable to NACCA when the underlying loans receivable are repaid by the client, or the funds are not utilized in a manner consistent with the funding applications. As described in the funding agreement with NACCA, provided NADF has taken all reasonable steps to recover outstanding amounts from clients, NACCA will not demand repayment of those loan advances. Funds repayable to NACCA are non-interest bearing.

Funds held in General Fund bank accounts are shown net of the General Fund line of credit balance.

The current portion of ELP repayable contributions represents the portion relating to anticipated principal repayments over the next fiscal year, and any funds received which will not be disbursed to the applicant. Any amounts not disbursed by June 30, 2022 are shown as repayable.

The IEDF Fund contributed surplus consists of government assistance provided for lending purposes according to agreements with the Ministry of Indigenous Affairs. Unrestricted funds are funds advanced to NADF and advanced by March 31, 2022.

The consolidated deficit of \$2,160,132 was eliminated at March 31, 2020 by a charge against contributed surplus, as approved by the Board of Directors.

21. Income taxes - Neegani Fund

Neegani Investment Management Inc. has losses available for income tax purposes totaling approximately \$177,000. This amount can be used to reduce taxable income in future years. This amount has not been recognized in the consolidated financial statements. The losses expire as follows:

2026	88,000
2032	3,000
2033	1,000
2035	1,000
2036	10,000
2041	74,000
	<hr/>
	177,000

22. Financial instruments

The Organization, as part of its operations, carried a certain number of financial instruments. Unless otherwise noted, it is management's opinion that the Organization is not exposed to significant interest, currency or credit risks arising from its financial instruments.

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. Changes in market interest rates may have an effect on the cash flows associated with some financial assets and liabilities, known as cash flow risk, and on the fair value of other financial assets or liabilities, known as price risk.

The Organization is exposed to interest rate price risk on its loans receivable as they are at fixed rates. The Organization has loans with fixed rates ranging from 5% to 12% and maturities ranging from one month to twenty years.

Credit risk

The Organization is exposed to credit risk in the event of non-performance by the borrowers. The Organization monitors credit risk and the maximum credit risk is the fair value of the loans receivable. Credit risk is managed principally through the Organization's lending policies covering approval, documentation and management practices that loan officers must follow. Credit must be evaluated against established credit policies and be structured, particularly in terms of security, to be prudent for the risk incurred.

23. Subsequent events

Indigenous Growth Fund ("IGF") Line of Credit

Subsequent to the year-end NADF intends to enter into a \$1,200,000 maximum loan agreement with Indigenous Growth Fund LP, for the purpose of disbursing business loans to Indigenous businesses. These funds will be secured by specific loan funds, and will be available for three years from the effective date of the loan agreement. The outstanding loan amount will accrue interest at prime plus 2.9%, with a maturity date of August 1, 2030.

Emergency Loan Program ("ELP") loans

The Federal Budget 2022 proposed to increase the non-repayable portion of ELP loans to 50%. During the fiscal years ended March 31, 2021 and March 31, 2022, ELP loans and grants of \$1,795,776 were disbursed (loans \$1,241,832 and grants \$553,944). The grant portion of those disbursements ranged from 25% to 50%. Any adjustment to loan balances will be recognized when the funding agreement with NACCA is amended.

Notes payable

NACCA Enhanced Access notes payable are expected to be converted to capital to be available for future loan disbursements, rather than being repaid to NACCA when the underlying loans receivable are repaid by the client. Based on March 31, 2022 balances this will decrease notes payable by \$1,604,465, with a corresponding increase to contributed capital.

24. Comparative figures

Certain of the comparative figures presented in the accompanying consolidated financial statements have been reclassified to conform with the current year's presentation.

Appendix A - Allocated Administrative Expenses

For the year ended March 31, 2022
